à l'ensemble itinéraire

scoring

1 eb clarinet

1 vibraphone

1 cello

the score is notated in c.

duration ≈ 9 minutes

comments on dynamic notation

all dynamic signs are within quotation marks and do not indicate the actual volume heard but rather the intensity of the action.

the crescendos should be played with little crescendo in the beginning and much crescendo at the end ("saving" much of the crescendo for the end).

the diminuendos are to be played with a lot diminuendo at the beginning (doing most of the diminuendo at the beginning).

comments on performance techniques

eb clarinet

notes with square heads indicate "blow sound".
the mouthpiece should be used.
if the sound becomes too weak add sh-sound with the tongue.
you can also pinch the reed to add resistance.
only the fingerings in the eb clarinet fingering table should be used.
once in this technique try to the clarinet to resound as much as possible.

vibraphone

the vibraphone is to be played with knitting sticks with earrings or small metal chains attached to them.
the pedal is never to be used, nor the motor.
the two noteheads is showing that the two hands is used simultaneously on the same lamell.
if there is only one accidental it is used for the two notes.
the sound should be a blend between the metal sizzle and the sound of the dry lamell.
it should not have too much of pitch.

cello

square notes are to be played as semi-harmonics where the finger touches the string very gently without depressing it.
one could add one or two fingers behind the first finger to ensure that the string is well damped and to avoid all harmonics effects.
the tone quality should be as bodily as possible without having "any" pitch in the sound.
you must hear the difference between two pitch positions (quarter tones).
the dynamics are produced by bow pressure or by bow speed.
it is recommended to use a lot of resin to get the sound right (not too smooth and soft).
try to make resounding the bow hair as much as possible.
the whole part is to played entirely on the g-string using a heavy bow.
